**Statement of Professional Concerns**

As your candidate for ALA Executive Board I stand ready to serve as Council's representative and advocate for ALA Council concerns, ALA policies and initiatives, ALA members, libraries, library users, and the public good. On your behalf, I will emphasize efforts supporting: re-thinking and improving how ALA is internally organized; educating policy makers about library concerns; ALA leadership which moves the profession into a more diverse and inclusive future; effective and timely responses to major issues of the day; mutually-beneficial partnerships with external partners; the development, growth, and budgeting of ALA revenues; development, recruitment, and retention of ALA members; and effective dissemination of our collective information savvy and technology prowess in ways which ensure the association has future financial stability. I stand ready to implement the will of Council, ALA's governing body, in order to ensure the future viability of ALA and libraries. May I please have your vote?
