In this report, I share my work as [IRRT Mission Enhancement Grant](#) Recipient on how ALA/IRRT is collaborating with the [Croatian Library Association \(CLA\)](#)

On 9 October 2020, I organized a virtual session for the 45th Croatian Library Conference and General Assembly. The presenters included myself, Alexandra Houzouri Humphreys, Philip Schreur, Mark Mattson, and collaborations with CLA with a focus on global projects.

Afterwards, Dr. Philip Schreur of Stanford University presented on linked data projects and how European collaborations and programs are supporting linked data initiatives for global research and discovery. Philip highlighted upcoming linked data conferences globally and the work on LD4 Conferences held recently online.

The session also used the Microsoft PowerPoint feature to translate our presentation from English to Croatian via live captioning. The session was listed in the ALA IRRT webinar page, where I am also a member of the webinar committee. The session drew over 55 attendees from Croatia and fellow ALA/IRRT members also joined.

IRRT Chair Alexandra Houzouri Humphreys from Arizona State University gave opening remarks and introduced IRRT to attendees. She welcomed everyone in Croatian. Alexandra introduced the history and working projects of IRRT, and emphasized the sister library projects and mentorship program under IRRT.

My presentation focused on what the Mission Enhancement Grant would bring to foster linked data learning for an IRRT/CLA collaboration. The purpose is to sup-

Connect with IRRT

Mission Enhancement Project Webinar Series Report

Ray Pun, Education and Outreach Manager, Hoover Institution Library & Archives (USA)

raypun101@gmail.com

As a member of the IRRT webinar committee (2021-2022) and the Mission Enhancement Grant recipient for 2020, I co-organized three webinars focusing on specialized topics in linked data. In collaboration with Dr. Dijana Machala from the Croatian Library Association (CLA) and Dr. Philip Schreur from LD4 and Stanford University Libraries, we hosted three webinars that aimed to support CLA members and librarians in Croatia interested in linked data webinars.

In June 2020, three webinars were launched as part of the Mission Enhancement Project. If you missed any of the webinars, the recordings and their slides are available in the IRRT Webinar page. The three webinars were the following: 1. Linked Data and Rare Materials; 2. Linked Data and Ethics; 3. Linked Data and Discovery. Each webinar had over 170 registered attendees, and over 70 attendees came to each webinar to hear our expert speakers on these important topics. Attendees came from Croatia, Sri Lanka, Senegal, Venezuela, Netherlands, Canada, Mexico, Brazil, Argentina, Sweden and across the United States. We were very happy to see such global participation and engagement. Each webinar started with an introduction on behalf of the ALA IRRT and Mission Enhancement Grant support, and opening remarks from Dr. Dijana Machala and Dr. Philip Schreur, followed by each speaker.

In the first webinar on Linked Data and Rare Materials, Paloma Graciani
